team@thebitcoinfamily.com

ProBotTrading is a **crypto startup** founded in 2020 by a team of **professional traders** that developed a safe automated trading system.

We are a fast growing company with 400+ members since our subscription service launched in early 2021.

Our system generates **micro profits 24/7** and is non-custodial, meaning you are **always in control of your funds** and profits, as they stay in your personal exchange wallet at any time.

ProBotTrading takes human emotion out of investing by relying exclusively on our **automated trading algorithms** while monitoring them 24/7.

Why ProBotTrading?

We want you to feel free and safe when joining us at ProBotTrading.

NON CUSTODIAL

Your funds stay in your wallet and under your control at any time.

NO LOCK UP

You can opt-out within 48 hours.

360° SERVICE

No trading knowledge is required, we provide you a full service.

DAILY GAINS

Earn crypto while you sleep. Constant cashflow is key.

Financial Freedom

Having a constant **cashflow** while **holding an asset** is what most investors are looking for.

It is said that holding Bitcoin is the best and most profitable strategy. But, we believe that holding and micro trading on a very low risk is what makes the long term difference.

It is our highest priority to give you the peace of mind to concentrate on more important tasks of your life, while earning a steady **passive income** from your BTC, ETH or USDT.

2021 Monthly Profits

Minimum expected return 2,5 % per month.

*monthly returns depend on market volatility. Past performances do not predict future returns.

Holding

V S

Micro trading

Example based on our performance so far - it does not predict the future.
